

**Important Update Communication # 19:
Preventing the spread of coronavirus COVID-19**

Dear Family Members, Friends, Staff and Residents of Glenvale Villas,

All visitors are now restricted (with the exception of essential service providers) from entering Glenvale Villas, this is effective from today, Monday 31 August 2020.

This is a precautionary measure as directed by the Queensland Government due to recent community transmission of Covid-19, we expect the Government will review this in another 14 days.

As a further precaution all service personnel are wearing face masks onsite.

Residents are only able to leave for essential medical appointments, if a family member is taking a resident to a medical appointment we ask that family members also wear a face mask.

The residents are still enjoying our meals in the dining room as per our Covid-19 safe plan and participating in onsite activities.

Thank you for your understanding in these challenging times.
